

EverCharge EVSE Operation

01 Push charge connector into the vehicle's charge port.

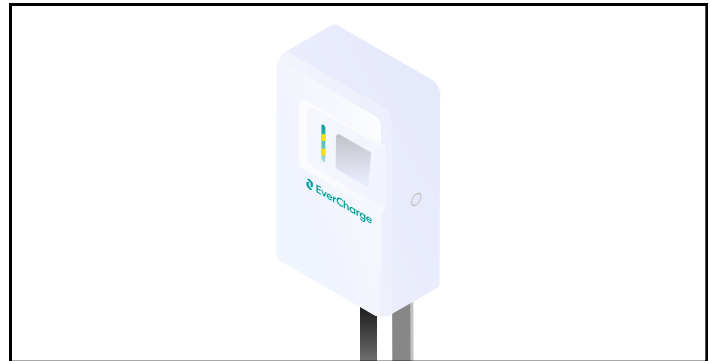

02 Scan the QR code on the charger or swipe your RFID Card. Skip if not required.

03 Follow the LED indicator status.

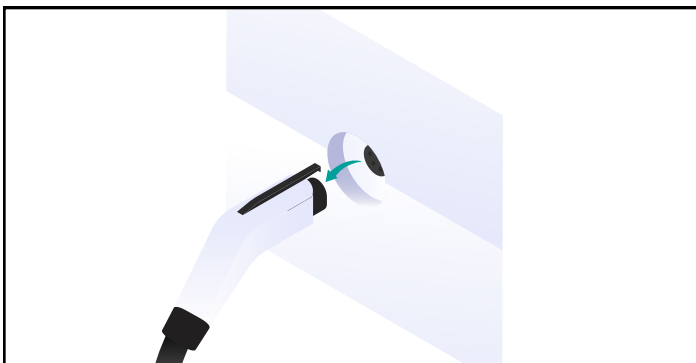

CHARGING STATUS	
 Ready	 Charging
 Complete	 Contact Us

04 Vehicle will **automatically** stop charging when it is fully charged.

05 To release the connector, press the latch button and wait for the LED lights on the port to indicate termination.

Proceed to smoothly disengage the connector.

⚠️ MAXIMIZE THE LIFE OF YOUR EVSE'S CONNECTOR

- Do not drop connector.
- Avoid forcefully pulling on the connector. For best practice, follow Step 05 of the guide.
- Ensure connector cable is properly coiled and secured after each use.
